ACTIVITY REPORT

Dated: 14/09/2018

ACTIVITY DETAILS: Cleanliness Drive in village Kablana under Swachh Bharat Swasth Bharat Abhiyaan.

PARTICIPANTS: 82 Students of ECE Department Participated.

OBJECTIVE:-

- To bring about an improvement in general quality of life in the rural areas by bringing cleanliness and elimination of open defecation.
- To promote cleanliness amongst citizens.
- To aware the citizens to dispose of waste mindfully.
- To effect behavioural change regarding healthy sanitation practices.
- To remove the system of manual scavenging.

Department of Electronics and Communication Engineering organized **"Cleanliness Drive under Swachh Bharat Swasth Bharat Abhiyaan"**. The main purpose of this programme was to create awareness among the people of Kablana village regarding cleanliness and its benefits. Under this event, all the students of ECE department along with faculty members have participated. As a part of this cleanliness drive, we made the people aware about cleanliness as it is the method by which we safeguard ourselves against various diseases and epidemics and ensure a good physical and mental health. Cleanliness is the habit of cleaning our home and surroundings and to make them look neat and clean. Cleanliness is of various types like personal, environmental, surroundings etc. Mahatma Gandhi highly emphasized the necessity of cleanliness and used to say that "Sanitation is more important than independence". The feedback of the villagers was overwhelming.

ACTIVITY REPORT

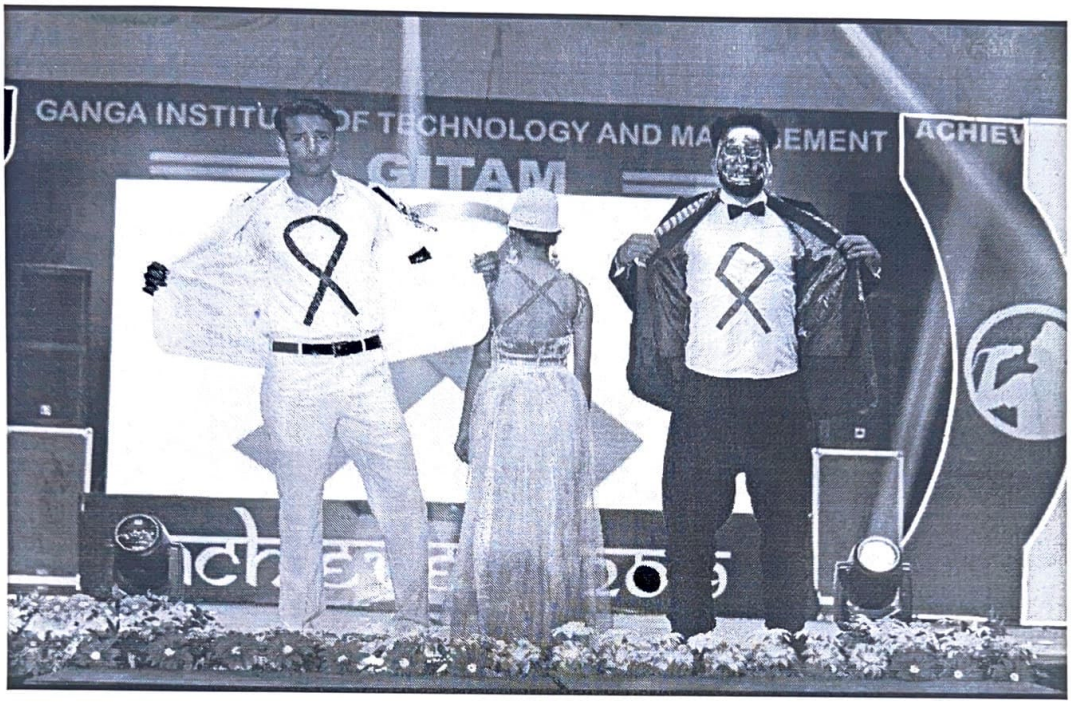
Dated: 27-02-2019

ACTIVITY DETAILS: AWARENESS ON HIV/AIDS.

PARTICIPANTS: 25 Students



Ganga Institute of Technology and Management, Kablana (Jhajjar) organized an awareness programme on HIV/AIDS in collaboration with Red Ribbon Club. Students of Ganga Institute of technology and management presented a drama and fashion show on HIV/AIDS in national level festival ACHIEVER. There was a huge enthusiasm among the gathering for this programme. The main objective of the programme was to create awareness among the people about the cause, signs and symptoms and preventions of HIV/AIDS. The attendees were enlightened that HIV is found in specific human body fluids and Human body can be infected with HIV if any of the following fluids enter your body: Blood, Semen (cum), Pre-seminal fluid (pre-cum), Breast milk, Vaginal fluids and rectal (anal) mucous

There are very specific ways that HIV can be transmitted through body fluids.

- During sexual contact.
- During pregnancy, childbirth, or breastfeeding.
- As a result of injection drug use.
- As a result of occupational exposure.
- As a result of blood transfusion with infected blood or an organ transplant from an infected donor.

Signs and symptoms commonly seen in the early stages of HIV include:

- Fever
- Chills
- Rash
- Night sweats
- Muscle aches
- Sore throat
- Fatigue
- Swollen lymph nodes
- Ulcers in the mouth

HIV/AIDS Prevention

Reducing sexual risk is one way to prevent the transmission of HIV. One can reduce the risk by:

- Practicing abstinence.
- Practicing safer sex.
- Getting tested.
- Being monogamous. .

Mr. Jitender, HOD-FTS gave the vote of thanks.

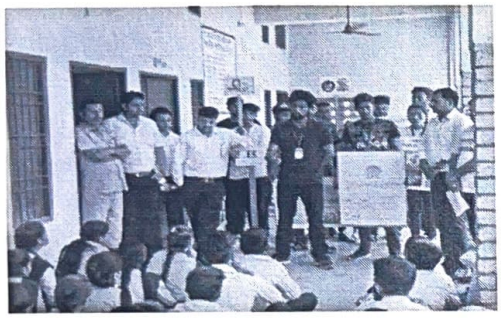
ACTIVITY REPORT

Dated: 11/04/2019

ACTIVITY DETAILS: Awareness program on "Conservation of Energy" in Govt. School, Khatiwas.

PARTICIPANTS: 22 Students and 5 faculties.



A Conservation of Energy awareness campaign was organized by the Department of Electrical Engineering in Govt. School, Khatiwas Jhajjar on 11/04/2019. The objective behind this program was to aware the students about the Conservation of Energy. Mr. Jitender Singh briefed the students that Energy Conservation plays an important role in saving non-renewable energy resources and non-renewable energy sources take many centuries to regenerate. Humans consume energy at a faster rate than it can be produced. Therefore, energy conservation would lead to the preservation of these precious non-renewable sources of energy. The attendees were further apprised about various effective ways to conserve energy. The student volunteers also threw some light with conveying messages related to energy conservation.

At the end of the event a vote of thanks was proposed by Er. Jitender Singh.
