GITAM focusses at holistic development of its students by giving them exposure at all fronts, be it Expert Lectures, Industrial Visits, Seminars, Workshops, Technical Activities, Project Competition, Sports etc. As the technology is changing in present scenario, Ganga Centre for Skill & Entrepreneurship Development with a whopping Investment of Rs. 30 Crores is a new initiative. This will act as an Industry inside the campus, where students will get exposure of Industry size Machine tools. They will also get hands-on experience on commercially licensed softwares actually used in Multinational Companies with an experience of 2-3 years along with their regular education. It will also act as a stepping stone for those who aspire to be an Entrepreneur.

It was my fortune to be a part of GITAM where I could grow. The best thing about GITAM is the cross-cultural interaction between students from various parts of world. Faculty members always encouraged us to participate in Extra Curricular activities and widen our horizons beyond the academic curriculum.

I really value my education at GITAM for many reasons. First, I got to learn about many things I never knew about. Another reason is that the teachers here really care about you and your education. Tutoring is also available after college timing for those students who need special attention. This college has a safe learning environment and I consider it as a home away from home.
